

Book publishing. Radically open.

An AI-powered platform where authors publish, translate and sell to the world, with human-centered agentic guidance.

Every story deserves to take flight.

A WORLD OF STORIES. TOO MANY BARRIERS.

<2%

of book manuscripts
ever get published

<1%

of published books
are translated

<10%

author royalty on sales
price: industry standard

Agentic AI makes books, audiobooks and promotional content at a fraction of industry costs, lowering barriers while retaining high margins.

THE GLOBAL SELF-PUBLISHING MARKET

\$3.8B → \$8.1B
2025 2034 · PROJECTED

Projected annual growth ~8.8%

Market: Dataintelo (2026), as cited in the original teaser. Industry figures: company teaser.

A publishing house. For every author.

A full publishing team at the cost of
a streaming subscription.
One platform, from manuscript to market.

MEET YOUR AI PUBLISHING TEAM

Human-centered guidance, at every step
